

OUR TEACHING CONCEPT

Dance for your child is based on a lifetime learning concept, in addition to technical skill. Our basic building blocks for our dance program are as follows:

- FUN
- RESPECT
- HONESTY ~ COURTESY
- CONFIDENCE ~ SELF ESTEEM
- PERSERVANCE ~ SELF DISCIPLINE
- SELF EXPRESSION ~ SELF AWARENESS

Our dance lessons have a DYNAMIC and challenging approach to the Art of Dance reaching children who are athletic, energetic, awkward or shy, bold, nice or maybe a little wild once in a while ~ Dance Dynamics is probably for a child just like yours.

♥ EVERY CHILD WINS ♥

In dance every child can be a WINNER instead of a bench sitter, because dance allows children to reach for their own potential rather than competing with other children.

♥ BETTER GRADES ♥

Being in dance also means being a better student. All children in dance will be encouraged, and they will learn important skills ~ following directions, paying attention in class, respect for their discipline and for each other.
